Job Details

Job ID: ababf068-d05d-414e-ab3c-d51d8ec054e1
Region: Karnataka
Status: COMPLETED
Request Type: predict
File Count: 1
Created At: 25/4/2026, 3:01:58 am

Analysis Summary

Rice Type: BD39
Total Grains: 11
Healthy Grains: 0
Unhealthy Grains: 11
Health Score: 0%
Quality Grade: Animal Feed / Waste
Market Price: 122.5/kg
Shelf Life: <1 month (immediate processing)
Supply Chain: Animal Feed/Waste
Health Breakdown:

- discoloured high: 7 grains (64%)
- unhulled: 4 grains (36%)

Unhealthy Grains — 11 (100%)

Health Distribution

discoloured high — 7 (64%)
unhulled — 4 (36%)

AI Storage & Handling Advice (LangChain / Ollama)

Based on the provided structured data, here are the requested insights:

- Overall Quality Explanation:
The rice batch exhibits low quality, with 100% of grains being unhealthy and having a

dominant type of BD39.

2. Supply Chain

Recommendation:

Due to its poor health, this batch is best suited for supply chains that prioritize using feed-grade rice or waste management, such as Animal Feed/Waste.

3. Shelf Life Insight:

Shelf life is less than one month, requiring immediate processing to prevent further degradation.

4. Market Suitability:

This low-quality rice is suitable for the market in Karnataka, where there may be a demand for feed-grade rice or waste management applications that can utilize this batch.

5. Storage Advice:

- Store the rice in a cool, dry place to slow down spoilage.
- Keep the grains off the floor and away from moisture sources.
- Monitor temperature and humidity levels regularly.
- Process the rice as soon as possible due to its short shelf life.

6. Farmer-Friendly Explanation:

This batch of rice didn't meet our quality standards because all the grains are unhealthy. It's best used for animal feed or waste management, rather than human consumption. We recommend storing it in a cool, dry place and processing it quickly to prevent further spoilage.

IoT Sensor Data

Location: Karnataka
Grain Count: 11
Healthy %: 0%
Dominant Type: BD39
Avg Type Confidence: 94.4%
Avg Health Confidence: 62.7%
