

Rice Quality Analysis Report

Generated: 25/4/2026, 3:17:45 am

Job Details

Job ID: f23716f7-f2df-4535-9ed1-e645c1ba3c76
Region: Karnataka
Status: COMPLETED
Request Type: predict
File Count: 1
Created At: 25/4/2026, 3:17:31 am

Analysis Summary

Rice Type: BD39
Total Grains: 15
Healthy Grains: 0
Unhealthy Grains: 12
Health Score: 0%
Quality Grade: Animal Feed/Waste
Market Price: 122.5/kg
Shelf Life: <1 month (immediate processing)
Supply Chain: Animal Feed/Waste
Health Breakdown:

- discoloured high: 7 grains (47%)
- unhulled: 8 grains (53%)

Quality Charts

Health Score

Unhealthy (12) — 12 (100%)

Grain Health

Unhealthy Grains — 12 (100%)

Health Distribution

discoloured high — 7 (47%)
unhulled — 8 (53%)

AI Storage & Handling Advice (LangChain / Ollama)

Here are the requested outputs:

****Overall Quality Explanation**:**
This rice batch has a mixed quality profile, with 12 out of 15 grains predicted to be unhealthy, indicating a poor overall quality.

****Supply Chain**

Recommendation:** Consider diverting this batch for animal feed or waste usage, as its poor quality makes it unsuitable for human consumption.

****Shelf Life Insight**:** Due to its poor quality and the recommendation to process immediately, the shelf life of this rice batch is expected to be less than 1 month.

****Market Suitability**:** This low-quality rice is suitable for markets where food waste or animal feed are in demand, as it would not meet human consumption standards.

****Storage Advice**:**

- * Store in a dry and well-ventilated area to prevent further degradation.
- * Keep away from direct sunlight and moisture sources.
- * Consider storing in sealed containers or bags to maintain quality.
- * Regularly inspect the batch for any signs of spoilage or contamination.

****Farmer-Friendly**

Explanation:** Unfortunately, this rice batch did not meet our quality standards. It's best suited for use as animal feed or waste, rather than being sold for human consumption. We recommend processing it quickly and storing it properly to maintain its condition.
